UM200 COLD PRESS OIL MACHINE

Rated **5.00** out of 5 based on 2customer ratings
(2 customer reviews)

Overview

UM200 cold press oil machine is for oil extraction from dry oilseeds which may include sesame seed, hempf, sunflower seeds, canola, coconut, black cumin, grape seeds, safflower, canola, pumpkin seeds, melon seeds, palm seeds, pomegranate seeds, coconut, lauri fructus, apricot seeds, hazelnut, peanut, walnut, opium poppy, flax seeds, almond, pistachio, jajoba, mustard seeds, nettle seeds, raspberry, pepper seeds, rosehip seeds, jatropa, cocoa bean, melon seeds, soy beans, blueberry seeds, pistachio etc. without really using heat to extract as that may degrade the oil's flavour and nutritional quality.

Details

Weight	67 kg
Dimensions	84 × 24 × 54 cm
How it is made	Tightening Torque Press
Motor Power	1,5 kW
Power Supply	220 – 240 Volt
Energy Consumption	400 – 950 Watt/Hour
Gear Box	Helical Shaft Gear
Thermostat	Temperature Control 600 Watt
Hourly Capacity	around 1 to 45 kg in an hour (may change depending on purity grade and seed density of the pressed material.) Can extract max 1080 kg in 24 hours.
Application Area	Food production, chemical products, pharmaceuticals

With ULIMAC's UM200 **cold press oil machine** you press homemade oil from all oil-rich seeds and nuts. Our UM200 oil press has high extraction efficiency and allows you to make your own natural oil.

The UM200 **cold press oil machine** model is a new generation cold press used in oil extraction and processing plants to extract oil at a lower temperature. The UM200 model we produce is particularly suitable for the mechanical processing of common plants and value-added oil seeds; this process is done at a lower oil temperature, resulting in a higher oil extraction rate and lower residual oil content in the mark from which the cakes are formed. The oil processed by the **UM200 cold press oil machine** model is clear and of the highest quality; it is rich in nutrients and meets or even exceeds the standards set by the international market.

Advantages of Cold Press

- Oil processed with cold press technology is clear and rich in nutrients. After decantation and filtration, the final product is of unmatched natural purity. Cold pressing allows you to save on refining costs and reduce product losses during refining.
- Little damage is done to proteins at low temperatures, thus minimizing the loss of proteins contained in oilseeds.
- Low temperature operation reduces steam consumption and thus energy consumption.
- Oil seeds never come into contact with solvents, acids, alkalis or chemical additives during processing. Then the finally extracted oil retains most of the nutrients and trace elements, ensuring a high protein content.

ULIMAC Oil Press Technology

The UM200 **cold press oil machine** is a high level engineering product. Our UM200 model cold press oil machine is suitable for industrial use. It can be used in industries such as food production, cosmetic products, pharmaceutical production. We safely serve our UM200 cold press machine to the whole world. With the oil press technology, you can extract your own oil and use it in different sectors.

With the **cold-pres oil machine**, you can extract the oil of different seeds such as black cumin and sesame. Thanks to the UM200 cold press oil machine manufactured by ULIMAC in Turkey, you can extract healthy oils. Buy our oil press machine to extract completely organic seed oil.

Thanks to the **UM200 oil press machine**, you can use seed oils wherever you want without losing their vitamins and minerals. Contact us today to get a quote for UM200 cold press oil machine.
